Some dragons can only be obtained by playing the Magic Game in the context of the activity "Potion of the Dragon. » These are:Dragon butterfly: Get 10 potionsDrago fossil: G potions, but these dragons are also available through breeding. Note that each extraction in the game of Sortilege has a cooling time of 6 hours, which you take has a low probability of getting the first prize of a Book of Magie/Potion. To give you a moderate probability, you have to spend 50,000 Gold, and for a 100% probability, 20 Gems. It is very difficult, if not impossible, to succeed without spending some gems when the Dragon Potion is available (time is limited). TIP: You should focus on the breeding of medieval and alpine dragons, as it can produce a great variety of hybrids.
